Introducing the 2019Q4 NDPR Academy® Class

Taxtech

©2ISearch

The Background:

Nigeria's National Information and Technology Development Agency (**NITDA**) issued the 2019 Nigeria Data Protection Regulation (**NDPR**) to safeguard the rights of natural persons to the privacy of their Personal Data by, among other measures, regulating transactions involving the collection, use and exchange of Personal Data. The NDPR springs from the shadows of the European Union's Global Data Protection Regulation 2018 (**GDPR**), a product of over 50 years of privacy law development in Europe. NITDA seeing the dearth of data protection practitioners in Nigeria, instituted the ingenious idea of appointing Data Protection Compliance Organisations (**DPCOs**) with the view of the DPCOs providing NDPR and related services (training, auditing and consulting) and products.

Our Thinking

21Search Ltd and Taxaide Technologies Ltd (a DPCO and technology development company) have established the NDPR Academy® (www.ndpracademy.ng) with the aim of providing NDPR training and NITDA-approved certification. It is currently estimated that there are over 1.5million organisations in Nigeria that meet the NITDA filing/compliance threshold of 1,000 Data Subjects; which fact suggests that each of those organisations will require, at least one personnel, sufficiently versed in NDPR and Nigerian privacy rights law in general. This is the essence of the NDPR Academy®, to train and certify a generation of persons that can foster the cause of privacy rights and the NDPR (including its future form), specifically.

Our Offering

The 2019Q4 NDPR Academy® Class ("NAC1B" or the "Class") is the first foundational (basic) class of the NDPR Academy®. It is a 7-hours training for a maximum 25 participants per class. The certification assessment is for an additional 1-hour. The 7-hours class is interactive as all course materials would have been sent electronically to registered Participants ahead of the 7-hours class. NAC1B, in the manner of all NDPR Academy® classes, is paperless. Participants must accordingly come for the class with their laptops. Internet facilities will be made available for the entire duration of the class and certification assessment. NAC1B alumni's will additionally be life-long members of the NDPR Academy®, having access to its vast resources on Personal Data protection in Nigeria.

NAC1B holds at the **Lagos Oriental Hotel, Victoria Island** on **Thursday, December 5, 2019** from **8:30am**. Facilities for the live-streaming of the Class is being considered for intended online attendees and would be confirmed in subsequent notices.

Intending Participants should please register for NAC1B via: www.ndpracademy.ng

NAC1B Course Module:

NAC 1B is made of the following 7 course modules with scope and objectives:

S/N	Module	Scope + Objective
1.	Module 1: Introduction to Nigeria Privacy Rights Laws	It introduces participants to the basis of Nigeria's current privacy rights laws in a bid to help them appreciate better the current conversations and laws on Personal Data protection.
2.	Module 2: Principles of Personal Data Collection and Administration	It helps participants understand the nature of Personal Data and the 6 globally recognised principles of data protection and processing in light of the provisions of the NDPR in a bid to help them fully appreciate the principles-based and rules-based requirements of data protection compliance and enforcement under the NDPR.
3.	Module 3: The Rights of Data Subjects	It helps participants understand the nature of the 8 rights of Data Subjects under the NDPR and how the rights are protected and enforced under the NDPR.
4.	Module 4: The Obligations of Data Controllers and Administrators	It helps participants understand the concepts of the Data Controller, Data Administrator and related concepts as the Data Protection Officer, Third Party and Data Protection Compliance Organisation as used under the NDPR; setting out their rules and time-sensitive obligations.
5.	Module 5: Local and International Transfers of Personal Data	It helps participants understand the nature and bases for transfers of Personal Data and the separate rules that govern local and international transfers under the NDPR.
6.	Module 6: Data Protection Compliance Processes – Audits and Impact Assessments.	It introduces participants to the concepts of Data Protection Audits (DPA) and Data Protection Impact Assessments (DPIA), highlighting the processes involved in each activity. The aim of the module is to help participants appreciate the functions and opportunities of the 2 compliance processes.
7.	Module 7: NDPR Liabilities, Penalties and Remedies	It helps participants understand the concepts (the how and when) of liabilities, penalties and remedies. It uses international examples to explain the lower and upper levels of NDPR penalties. The aim of the module is to help participants appreciate the cost of non-compliance with the NDPR.
